Services

Adult Day Services: Overview

An Adult Day Program is designed to meet the needs of the chronically ill and impaired adult (ages 18 and above) who live in the community. Socialization, assistance with personal care and a wide variety of activities help individuals maintain their independence and promote feelings of self-worth.

Adult day programs offer families an opportunity to take a break from the constant demands of caring for loved ones, who depend on them for assistance with activities of daily living. Individuals attend on a planned basis, which may range from one to five days per week, according to your special needs.
